Description of Building: age, style, notable/original features, significant alterations, general state of repair.

Eighteenth century cottage of three bays with 20th C single bay extension built at right angles onto the front (southerly) elevation of Bay 3. Bays 1 and 2: front elevation, painted sandstone, row of recessed mullioned windows with cavetto mullions on ground and first floors. Stone chimney stack on west gable. Bay 3: East gable: sandstone with quoins on front and rear corners. Two light recessed mullioned widow with cavetto mullions at attic level.

The site was part of a freehold estate in 1770 so the building does not feature on the 1770 manor map. Possibly occupied by Jonathan Bradbury, mason of Runninghill Head, who died in 1774 and who leased a barn, shippon and 8 acres of land at Runninghill in 1770.

Interesting features of the surroundings of the building/ its setting?
